

DAY 1 TASK

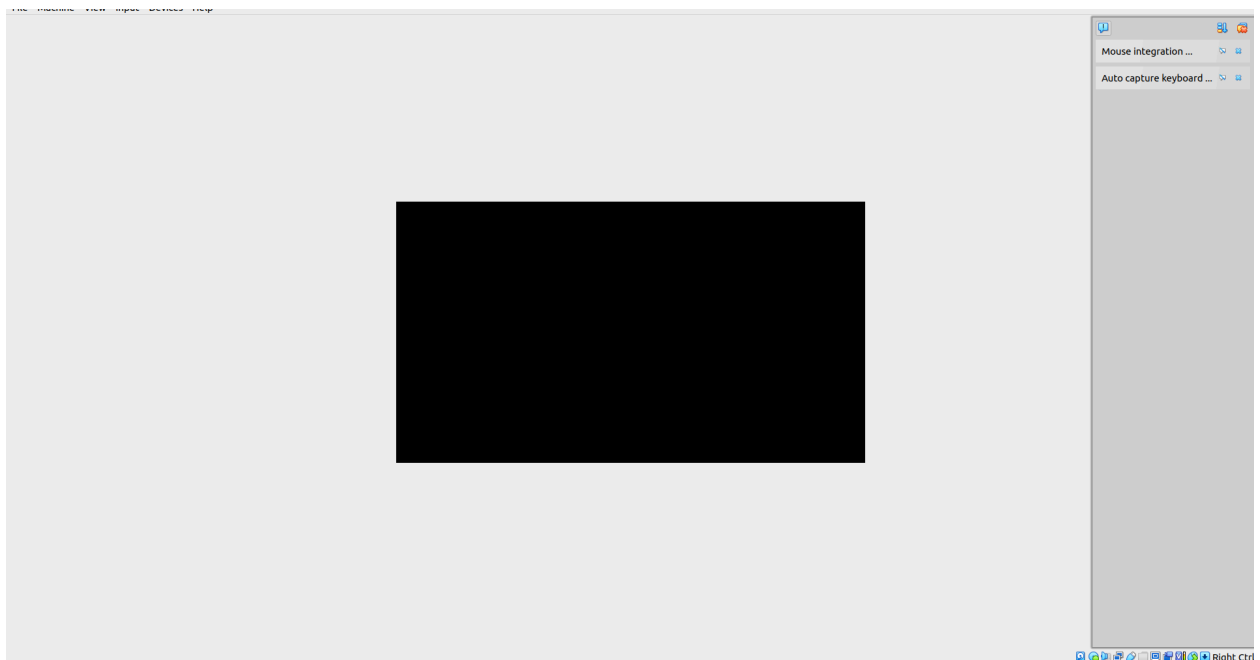

1. Install Ubuntu 22.04

VirtualBox (full Linux experience)

Steps:

1. Install VirtualBox
2. Download Ubuntu 22.04 ISO
3. Create VM:
 - RAM: 4GB
 - CPU: 2 cores
 - Disk: 25–40GB
4. Start VM → select ISO → Install Ubuntu

Tried to install ubuntu using vm but it got failed coz lack of memory

```
